

CONTENT

The night isn't merely an extension of the day - it is characterized through the needs of a 24/7 society, as well as the desire for leisure time and cultural participation. Despite the increased acknowledgement that nightlife culture is an important factor when defining urban attraction. Issues such as neighborhood conflicts, drugs, potential violence or personal risk behavior (in relation to the consumption of intoxicating substances or sexual intercourse) frequently dominate discussions revolving around nightlife. Therefore stakeholders as well as many individuals consider nightlife and festival culture unreflected as a problematic environment.

But is a city and our society only livable with subdued music and a restrictive atmosphere? The contrasting claims for a commonly content life seem to collide with each other more strongly during the night. This contrast helped initiate the process of shaping the night in many places around the world. For this reason, the focus of our interdisciplinary exchange, which will take place during the course of the NIGHTS - STADT NACH ACHT conference, will be placed on planning for nightlife and festival culture, as well as creating policies for enablement.

STADT NACH ACHT

NIGHTLIFE CONFERENCE

2019

ABOUT

This year's NIGHTS - STADT NACH ACHT conference takes place in Berlin for the third time! Following last year's conference in Brussels, we will return to Berlin's river Spree for a continuation of our successful cooperation between 'Stadt Nach Acht' and 'Nights', as well as our collectives and underground-oriented format 'Frei(T)räume'. Topics such as culture of the night, health & security, night-time economy and urban development form the interdisciplinary framework upon which we will discuss the complexity of nightlife, club culture and festivals with each other. We would like to invite all protagonists of nightlife culture and such related to it to this year's edition, making the NIGHTS - STADT NACH ACHT conference the ideal platform for international networking and exchange, reaching beyond limitations created by the scene, industry, research, politics, administration, health organizations and other areas of night expertise.

Die NIGHTS – STADT NACH ACHT 2019 Konferenz ist eine Produktion der Clubcommission Berlin im Auftrag der Senatsverwaltung für Wirtschaft, Energie und Betriebe in Zusammenarbeit mit dem europäischen NEWNet, dem ThinkTank stadtnachacht.de, dem Bundesverband der Clubs, Festivals und Musikspielstätten Livekomm, dem europäischen Verband Live DMA sowie weiteren Netzwerken und Institutionen.

SPEAKERS

The NIGHTS - STADT NACH ACHT conference is a production of the Clubcommission Berlin, in cooperation with the European NEWNet, the think-tank stadtnachacht.de, the German Association of Clubs, Festivals and Music Venues 'Livekomm', and the European Association of Clubs, Festivals and Music Venues 'Live DMA' among other networks and institutions. It is commissioned by the program 'Projekt Zukunft' of the Berlin Senate Department of Economics, Energy and Public Enterprises.
